RAKSHIT RAJ

FULL STACK DEVELOPER & WEB3 EXPLORER

+91 6359176410
rakshit.raj.cg@gmail.com
Gujarat, India

PORTFOLIO	LINKEDIN	TWITTER	LEETCODE	GITHUB	YOUTUBE

SUMMARY: Highly motivated Full Stack Developer specialized in the **MERN stack** and **Blockchain development**. Expert in crafting premium "Apple-like" UI/UX using **Three.js** and **GSAP**. Proven experience in building decentralized applications (dApps) using **Solidity** and **Bit Blockchain**, as well as scalable SaaS platforms with integrated **Razorpay** gateways.

SKILLS

PROGRAMMING & WEB3

JavaScript (ES6+) / TypeScript
Solidity / Smart Contracts
C++ / Data Structures (DSA)

FRONTEND & UI

React.js / Next.js 14
Tailwind CSS / Three.js
GSAP / Framer Motion

BACKEND

Node.js / Express.js
REST APIs / JWT Auth

TOOLS & DATA

MongoDB / Atlas
Bit Blockchain / Ethers.js
Git / GitHub / Postman
Vercel / Docker / Razorpay

EDUCATION

Swaminarayan University — **2025 - 29**
B.Tech in Computer Science

CERTIFICATES

Full Stack Masterclass | Meta
Blockchain & Solidity | Alchemy
Three.js Journey | Bruno Simon
Advanced React | Scrimba
AWS Practitioner | Forage

HACKATHONS

DevHeat IIIT Surat | *Top 10*
Electrosphere 2K26 | *Winner*
Odoo Hackathon | *Top 20*
Web3 Global Hack | *Top 50*

PROJECTS

Bit-Deals Ecosystem — WEB3 | 2026

MERN + Bit Blockchain Marketplace

Developed a secure marketplace using **Solidity** for immutable escrow agreements on the **Bit Blockchain**.
Integrated **Ethers.js** for wallet connectivity and transaction verification.
Engineered a responsive dashboard with real-time on-chain data tracking.

LIVE DEMO GITHUB

DevFlow SaaS — SAAS | 2026

Subscription Billing Platform

Built a subscription lifecycle manager with **Razorpay** integration for seamless Indian payments.
Designed a "Glassmorphic" dashboard with animated data charts using **Framer Motion**.
Automated invoice generation and payment status polling via Node.js cron jobs.

LIVE DEMO GITHUB

Inventra Pro — MERN | 2026

Advanced Inventory Management

Engineered a real-time stock management system with multi-warehouse support and role-based access.
Optimized performance using **MongoDB aggregation** for complex sales reports and analytics.
Implemented professional typography and dark-mode using Tailwind CSS.
